RESULTS OVERVIEW	
	<p>EvaluationKIT provides a variety of built in reporting options to allow you to get the most out of your data. These reports can be on one semester, one instructor, or include a variety of variables to produce a custom report. The guide will focus on the basic report types. For information on the advanced reporting options, view the EvaluationKIT Help Center articles and videos.</p>
<p>PROJECT RESULTS</p> 	<p>Within Project Results, you can search for and download the following types of reports from <u>one project</u>:</p> <ul style="list-style-type: none"> • Summary Aggregated Report for the whole project • Summary Aggregated Reports by hierarchy level (rarely used at BGSU) • Individual Course Section Reports • Batch Reports: <ol style="list-style-type: none"> 1. REPORT BUILDER

Within Report Builder, you can generate the following types of reports across multiple projects:

- Longitudinal Reports for selected Projects, Hierarchy Levels, Instructors and/or Courses.
- Reports based off select Question Criteria (for example, you can view the survey results for all students who answered yes to a specific question)
- Reports that compare Courses, Departments and Instructor results.
- Reports that only display select Questions from the survey(s).

RESPONSE RATE TRACKER

Within the Response Rate Tracker reporting feature, you can track the real-time response rates for all projects and view the response rates for specific hierarchy levels and courses within your course evaluation projects. You also have the option to download the Respondent and Non-Respondent files that display which respondents have and have not submitted surveys for the courses within the project.

To access the most recent project response rates, look at the **Response Rate Tracker** Widget on the dashboard.

You can also access the Response Rate Tracker by clicking on the **Results tab** and selecting **Response Rate Tracker**.

Within Response Rate Tracker, you can view the overall survey **Enrollments**, number of those enrollments who **Responded** and the **overall Response Rate**

Project Name	Enrollments	Responded	Response Rate
August Courses 2013	5	4	80%
Fall 2013 Course Evaluations	403	400	99.26%
Fall 2014 Course Evaluations	180	176	97.78%

RESPONDENT/NON-RESPONDENT FILES

By clicking on the **View icon** in the far right column, you can download the Respondent and Non-Respondent files to an Excel spreadsheet. At the project and hierarchy level, you can also download an Excel spreadsheet with the individual course-level response rates.

Note: Respondent/Non-Respondent Files will not be available to download if there are less than 2 respondents for a course. This is designed to protect the anonymity of respondents in the system.

RESPONSE RATE TRACKER SETTINGS

You can control **the Response Rate Tracker Settings** under Reporting within the **Account tab**.

Here, the EvaluationKIT administrator can configure the settings, including controlling whether administrator and/or instructors have access to the Response Rate Tracker feature and control whether these roles can access the Respondent/Non-Respondent Files for the areas they oversee, or courses they teach.

The EvaluationKIT administrator can also determine which fields to display on the Response Rate Tracker page.
