

# The Recycler

**Sustainability** means "meeting the needs of the present without compromising the ability of future generations to meet their own needs."

## How to Be More Sustainable This Fall

- **Recycle:** Utilize the recycling bins across campus and follow the instructions printed at each station. Become familiarized with your residence hall's trash and recycling bins. Don't mix recyclables and trash together, as this contaminates the recycling.
- **Reuse:** Use a reusable bottle/cup for drinks on the go! You can also use recyclable grocery bags instead of single use/plastic bags.
- **Ride a Bike:** Use your own bike or rent a bike from BGSU's bike rental program located at 507 Reed Street, Bowling Green. Check out our website under "Bike Rental."

### Waste Reduction & Resource Conservation
